Chief,

INFO:

B/3

1. While the above reference reported that subject was examined by AFM on 8 November 1954, the cited this report and [redacted] indicate varying opinions on the process and the results of this examination. Headquarters would like to provide as soon as possible a full and detailed report on the AFM examination, indicating the procedures used and exactly what questions were asked subject and his responses.

2. [redacted] requested your views on the use of AMICUS in the [redacted] interrogation. It was not to be construed as authority to use the technique. Headquarters approval is still required prior to the use of AMICUS in any instance.
